INTRODUCTION About KMDA

Role of KMDA

KMDA, established in 1970 under Presidential Ordinance and later sanctified under the KMDA Act of 1972, functioned essentially as a development agency with the specific purpose of carrying out major infrastructure development in KMA. With the enactment of West Bengal Town and Country (Planning & Development) Act in 1979, KMDA was designated as the statutory planning and development authority for KMA. Between 1970 and 1981 KMDA functioned as an overarching development authority in KMA as most of the units of local self-government in KMA were under suspension with no elected representation in place. It is only with the State Government's avowed policy of decentralised planning and development across the urban and rural areas of the State that elected representation was installed in all the urban local bodies of the State including those in KMA. KMDA has been working in tandem with the elected ULBs towards the overall development of KMA. The process of decentralised planning and development had taken a further stride following the enactment of West Bengal Metropolitan Planning Committee (WBMPMC) Act in 1994 in line with the 74th Constitutional Amendment Act of 1992. Following the provisions of WBMPMC Act of 1994, Kolkata Metropolitan Planning Committee (KMPC) had been established in KMA towards the end of 2000. Of the 60-member KMPC, 40 are elected from amongst the local elected representatives. The WBMPMC Act provides for preparation of a Draft Development Plan for KMA by KMPC having regard to the plans prepared by the individual units of local self-government. The Act further mandates that KMPC should coordinate all the development activities undertaken by the different agencies of the State and Central Governments within the geographical boundaries of KMA to ensure conformity of developmental actions to the development plans. KMMDA has become the Technical Secretariat of KMPC. KMDA has always been sensitive to the needs of carrying out urban development on ground. To accelerate the process of urban infrastructure development, KMDA has been the pioneer in enlisting private sector participation by invoking the paradigm of public-private partnership in development and management of urban development projects. Above all, with the evolution of functions of KMDA over more than 40 years, KMDA has become an epitome for urban planning and development in KMA.

Broad functional domains of KMDA

As already mentioned, KMDA’s functional domains broadly extend over three areas, namely, (a) regulatory functions; (b) planning for development; and (c) project implementation. Besides these major functional areas, KMDA is also engaged in providing consultancy services and implementing projects on behalf of other public sector departments and agencies.

Under provisions of the West Bengal Town and Country (Planning & Development) Act 1979, KMDA has to prepare existing Land Use Maps and Registers (LUMRs) for different zones within KMA to be able to prepare Land Use and Development Control Plans for those sub areas. KMDA has to follow the process of preparation of LUMRs and LUDCPs as laid down in the Act itself. Adoption of the statutory planning documents is proceeded by publication of the documents for public inspection, invitation of public objection, hearing of public objection and incorporation of the necessary modifications in these documents. The LUDCPs provide for regulatory measures, enforcement of which would lead to obtaining an environment-friendly, urban growth—subject to protection and conservation of exhaustible natural resources and heritage. As the process of official adoption of LUDCPs usually takes a longer time, Development Control Regulation (DCRs) are often drafted and enforced to prevent unregulated and haphazard use and development of land, as an interim measure. In most cases, the responsibility of enforcement of LUDCPs and DCR are delegated to the units of local self-government. KMDA, however, retains the enforcement power to itself in selected areas/zones.

KMDA is engaged in carrying out different levels of planning exercise right from perspective plan to formulation of investment programme. KMDA keeps on updating the perspective plan and sectoral development plans to take into account the changing physical, social and other contexts. KMDA does these exercises at periodic intervals. Whereas the perspective plan sets out the broad goals and objectives and puts forward a ‘vision’ to be achieved over a longer period of time, the sectoral master or development plans set out the norms and standards of infrastructure, services, the projected requirement of such infrastructure and services, the strategies to be adopted for achieving the projected requirement and an indicative requirement of funds for the purpose. KMDA is in the process of updating the visioning exercise into ‘Vision 2035’. KMDA strives to ensure that the project-level interventions conform to the long-term plans.
KMDA formulates short-term action plans based on inter se priorities between different sectors of infrastructure, between zones of KMA and between economic groups of beneficiaries. Based on short-term action plans, KMDA undertakes preparation of project reports towards execution of the same by adopting a competitive tendering process. A large number of projects have so far been executed by KMDA covering different sectors of infrastructure, such as, water supply, sewerage and drainage, traffic and transportation, township and area development, housing and slum improvement, commercial complexes, parks and playground and so on and so forth. It should be very pertinent to note that in design of interventions, the urban poor have always received priority attention. KMDA’s interventions have not confined to development of physical infrastructure alone and have extended to cover the fields of health and community development especially of the urban poor. Notwithstanding the mandates laid down in the WBT&CP Act and WBMPCA Act, KMDA willfully has to operate and maintain some infrastructure facilities, especially those trans-municipal in nature.

KMDA has been designated as the nodal agency for implementation of the Government of India sponsored Jawaharlal Nehru National Urban Renewal Mission (INURM) for Kolkata and Asansol urban areas. KMDA would also function as one of the executing agencies for INURM projects in KMA.

KMDA has been approached by different government departments/agencies for planning, designing and implementing certain projects that require specialized skills. This has happened because of the credibility that KMDA has achieved over the long years of its existence. KMDA is provided with the funds for implementing the projects on turnkey basis and is allowed to retain service charges at mutually acceptable rates. In KMDA parlance, these are called ‘deposit works’. KMDA has also extended consultancy services to government departments and agencies in specific areas. Introduction of Geographic Information System (GIS) in municipal functioning has been one of the prime areas where KMDA has provided a great deal of consultancy services to ULBs.
