43. The contractor shall also have to satisfy the Engineer-in-Charge regarding the proper utilization of materials which have been issued departmentally.

44. Value of the material, under category (a) & (b) of clause 40 above, will be recovered from the bills of the contractor in one or successive installments as may be decided by the Engineer-in-Charge.

45. Requisite quantity of cement as may be required for the work will be supplied from the nearest departmental go-down if stock permits. The issue rate of cement is shown in the schedule of materials attached. Any excess consumption of cement by more than 5% over the final consumption statement drawn up as per consumption rate specified in the Schedule will be recovered at a penal rate shown in schedule.

46. Reinforcing steel materials will be issued when stock permits, from the nearest departmental go-down where such material is available in marketable length. While issuing the same, for any particular work the quantity actual required as per approved drawing shall only be issued. While executing the work, it will be responsibility of the Contractor as well as the Engineer-in-Charge to get this quantity properly utilized in the work. Cut pieces, if any will not be taken back by the Department. Recovery for the total quantum of steel issued will be made at the issue rate shown in the Schedule. In case of misuse over +10%, deduction will be made at a penal rate shown in the Schedule. This whole principle shall apply in case of other M.S. materials also.
